BKIS PROJECTS AND EVENTS

Open Call 2021

Supporting culture directly contributes to improving the quality of life in the city, creating an identity or improving communication and social interaction among city residents.

Favourable conditions for organizers and creators of events and for the development of culture begin with a simple and non-bureaucratic system of cooperation. With this intention, BKIS opened new options for submitting applications for non-financial support and cooperation in 2021.

Open Call is an effective system of receiving applications and their transparent processing and selection according to clearly formulated criteria and rules. The effort is to support the maximum possible number of received applications with regard to the internal capacities of BKIS.

"We believe that thanks to the new rules of support, we will create better conditions for increasing the accessibility and quality of culture in the city. Our effort is directed towards the decentralization of culture and the support of public spaces, communities and civic activities."

Katarína Hulíková, Directress of BKIS

Bratislava Christmas

26 November – 20 December 2021

The city of Bratislava and BKIS were preparing a diverse program, the implementation of which was stopped by the worsening of the pandemic situation at the end of November.

Despite the difficult social situation, the aim of BKIS was to support the festive atmosphere during Advent and to dedicate an original, meaningful and attractive cultural program to the residents of Bratislava with an emphasis on the safety of visitors, spectators and the creative team.

ONLINE CITY WALK WITH THE MAYOR

26 November 2021

In cooperation with the mayor's office, BKIS provided the program, performers, sound system, lighting, stage boards, stages, furniture, handling workers, hostesses, production staff, camera equipment, including staff and event management at the individual stops of the walk.

CHRISTMAS FOREST

2 – 15 December 2021, Primate's Square

27 Bratislava kindergartens, elementary and art schools and a leisure centre joined the project in 2021. The children decorated Christmas trees with handmade decorations from natural materials. Visitors voted for the most beautifully decorated tree on the BKIS Facebook page and three winners were announced as part of the Christmas edition of the Klarisky Diškurz program. The trees were donated by the Bauhaus company and after December 16 they were placed in charity organizations, associations for homeless people as well as families for whom the purchase of a Christmas tree was financially unaffordable. Textile material for the production of ornaments was provided by ÚĽUV.

A YEAR OF GOOD NEWS

21 December 2021 – 4 January 2022

A selection of visuals with strong stories from the book A Year of Good News by Martin Smatana decorated various places of the city in city-light areas. The exhibited stories made waiting for the tram or walking around the city a far more pleasant experience.

Online communication 2021

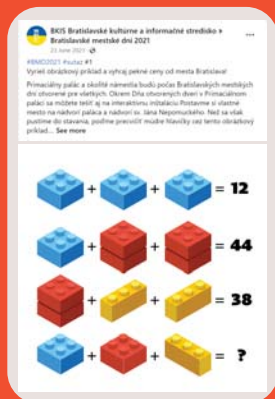

The aim of the communication strategy for 2021 was to unify visual style and content on social networks. This goal was achieved thanks to the graphic adaptation of contributions created for major program projects such as Bratislava City Days, Cultural Summer, regular online discussions of Klarisky Diškurz and On a date with the city.

We connected Bratislava City Days (BCD) and Cultural Summer through 3 hashtags, which were the main communication elements in both offline and online communication.

OPERATION OF BUILDINGS IN BKIS ADMINISTRATION

P. O. Huiezdoslau City Theatre (DPOH), Gorkého 19

As part of the modernization of technological equipment, in cooperation with the capital city Bratislava, we created necessary documents for the preparation of the public procurement and the implementation of works in the total sum of €120 000,00: replacement of an outdated gas boiler with two new boilers, replacement of 6 fire doors and fire alarms reconstruction - replacement of conventional fire detectors for addressable automatic detectors. At the beginning of December, we managed to eliminate an emergency situation related to leaks from the water distribution system at -1st floor.

DPOH, administrative building, Laurinská 20

The premises on the 3rd, 4th, 5th and 6th floors are rented by the Kowalského art school and are used as classrooms and administrative spaces. BKIS operates the 7th floor, where there is a terrace and 3 apartments whose renovation was being finalized.

KINO ZORA, cultural and community space Trnávka

On 25 March 2021, the city council approved the transfer of the Zora cinema area to the management of BKIS. We cleaned the buildings and signed them up with energy suppliers, we covered the leaking roof, mowed the adjacent area and secured it so that it does not threaten the safety of people moving around the buildings. We also repaired the damaged roof shield above the building of the former car repair shop. Inside of the building, we ensured a technical audit of boiler rooms and a revision of gas distribution.

Mlynská dolina 47, storage space

Since 2004, BKIS has been using this building as the only storage and operating space for Bratislava events. A project is in preparation to eliminate the emergency condition of the roofs above the carpentry and locksmith workshops and the archive building. In 2021, the **cataloguing of the BKIS** archive was completed. We cleaned up archival and accounting materials from more than two decades. Historically valuable documents were moved to the Bratislava City Archive.

Klarisky, concert and exhibition hall

In the building that has been declared a national cultural monument, we provided regular operational services and revision of the fire alarms. We have been experiencing a problem with leakage into the annex through the roof structure for a long time now.

Hviezdoslavovo námestie 20

Administrative rental unit, temporary headquarters of BKIS on the 1st floor with an area of 531,18 m². We maintain the building to operational contractual standard.

Židovská 1, administrative building and BKIS headquarters

BKIS manages the building and ensures maintenance, cleaning, revisions and its overall operation. Part of the building has been used by the Municipal Department of Social Affairs from 1 January 2021. In the building, construction modifications were made to selected rooms to improve the acoustics of partitions on the 1st and 2nd floor.
