Open Call 2022

The priorities of BKIS include making maximum use of the capital city's cultural potential, supporting multi-genre cultural program, civic activities and communities in Bratislava, developing public spaces and increasing the availability of culture in all its city districts.

For successful realization of these ambitions, it is necessary to ensure favourable conditions, i.e., a creation of a stable system of sustainable and functional support for all creators of culture - actors of organised culture (city organisations, urban areas) and independent culture (individuals, civic associations, non-profit organisations, foundations, informal initiatives or commercial entities).

Open Call - a transparent mechanism of receiving and evaluating cooperation applications - ensures equal opportunities for applicants for support and cooperation with BKIS, as well as effective scheduling of BKIS capacities. Event creators can apply for premises provision, material and technical support, services, inventory and marketing support. Artists can offer their art programs to city festivals, such as Bratislava City Days, Bratislava Cultural Summer, or Bratislava Christmas.
The Open Call system is gradually implementing the intentions of the concept of sustainable development of culture Bratislava 2030 – Decade for Culture (Department of Culture of the Capital City of the Slovak Republic, Bratislava). Professional evaluation of applications ensures the development of cooperation and events in accordance with European democratic values and their tradition based on human dignity, freedom, equality and solidarity.

DPOH Delimitation

Since 2010, the DPOH building has been leased to BKIS for a period of ten years, based on the resolution of the Bratislava City Council. The separation of the theatre was part of the Program Statement of the mayor of the capital city and members of the City Council of the Capital City of Bratislava for 2019 - 2022.

In the years 2020 - 2022, a part of the planned delimitation of the theatre included several discussions with the theatre community, meetings with citizens and participations with the professional public in order to find suitable models for the further function of the new organisation, which BKIS implemented in cooperation with the Department of Culture of the Capital City of Bratislava.

1 March 2022 – the initiation phase of the DPOH delimitation project was launched by the BKIS project office.

26 May 2022 – deputies of the City Council approved the establishment of the P. O. Hviezdoslav City Theatre as a municipal non-profit organisation. A city theatre scene functioning as an independent organisation was created and Valeria Schulczová, who had worked as the head of the theatre management department of BKIS and set up a new profile of DPOH, was named its directress. Director and screenwriter Gejza Dezorz was appointed artistic director.

1 June 2022 – the DPOH delimitation project was launched and **4 main areas of its delimitation** were defined:

1. Property of the Capital City of the Slovak Republic, Bratislava, under the administration of BKIS / long-term property forming a part of the DPOH building and its equipment, as well as low-value assets (finished before 30 August 2022)

2. Work positions, employees and related labour law relations (finished before 31 December 2022)

3. Legal documentation, contractual relations and licenses (finished before 31 December 2022)

4. Marketing communication (finished before 30 August 2022)

Take a seat!

In 2022, BKIS took over the project in its third season from Bratislava Metropolitan Institute. Red tables and chairs, i.e., free public seating in the capital, enliven various corners of Bratislava, both abandoned and more frequented places; and are a great choice for a meeting place.
The seats cultivate and improve the quality of public space without the need for construction intervention. They allow the citizens of the city to sit, relax and meet in areas with no permanent seating.

***159** sets (1 set = 1 table + 3 chairs)*
***38** placements*

In October 2022, BKIS purchased 32 new sets + 3 chairs thanks to the Foundation of SLSP grant.

ZORA

In cooperation with the Department of Culture of the Capital City of the Slovak Republic, Bratislava and the Bratislava City Foundation, BKIS involved local residents in the planned process of revitalization and search for future cultural use of the premises of the former ZORA.

Participatory meetings with residents mapped the needs of the communities and residents of Trnávka, and at the same time provided space for joint creation of a lively neighbourhood. In 2022, reconstruction works took place in the premises of the building, the progress and results of which BKIS regularly reported on the website or in the form of a newsletter.

The goal is to create an accessible, friendly and inspiring environment open to the public, local artists, and people with special needs.
